In Germany and
2024 in Russia**

V Germanii s 1939 po 1945 god sozdavalas' reklama o tom, chtoby zhenshchiny rozhali mnogo detey, prinosili pol'zu nemetskoy armii i obespechivali yeye novymi soldatami i kompensatsiyami za vsekh pavshikh na pole boya soldat. V Rossii Vladimir Putin v 2024 godu provodit takuyu zhe politiku. Zhenshchiny, rodivshiye desyat' detey, poluchayut finansovoye vozнаграzhdeniye. Propaganda o tom, chto zhenshchiny mogut zhit', ne rozhaya, zapreshchena.

In Germany from 1939 to 1945, advertising was created for women to give birth to many children, to benefit the German military and provide it with new soldiers and compensation for all the fallen soldiers on the battlefield. In Russia, Vladimir Putin in 2024 has the same policy. Women who give birth to ten children receive a financial reward. Propaganda about women being able to live without giving birth is prohibited.
